## Someone used my identity to register a domain (ID theft). I never registered this domain. How can I have the domain deleted?

Doris Miller - 2019-01-24 - in Abuse

Please send us a written pleading with your signature, in which you request the deletion of the respective domain. Furthermore, we would like to ask to send us a proof of identity (such as an ID or driver's license).

Please go to [1api.support](https://api.support) to get access to our contact form.
